Acknowledgements

I would like to thank the University of Saskatchewan and the Social Sciences and Humanities Research Council for giving me the opportunity to pursue my research interests at a higher level, to grow as an artist and to create this body of work over the past two years. I would also like to thank the Department of Fine Art and the many wonderful professors and staff members working in it, especially my committee members Susan Shantz, Alison Norlen and Tim Nowlin, for their highly esteemed professional advice, assistance and contributions, for always being open-minded and engaged with my work.

To my external examiner, Mark Meyers, thank you for bringing your unique perspectives into the discussion, and for your thought-provoking comments and suggestions.

Thank you, Gary Young and Michael Peterson, for your help with the technical aspects of the installation and for always being affable and encouraging. Also, thank you to Joan Borsa, Allyson Glenn, Mona Holmlund and Tammy Lu for your feedback on my projects -- studio visits with you were always a pleasure!

Many thanks to my friends in Saskatoon, especially Levi and Wing Yee, for numerous insightful conversations and fun times, and to Levi, Joseph and Joe for their help with the long and exhausting installation of the show. It's been a pleasure "growing" with you.

To my family: thank you for being there for me, in every possible way, for your encouragement and ceaseless help.

Last but not least, special appreciation goes out to Joe for his love and support over the past two years. I'm grateful to have you in my life!
